

REMARKS

Basis for the newly added claims is found in the specification, for example on pages 4 –6(The Description of the Figures), page 7 (Table) as well as the ten Figures and claims as originally filed.

Applicants are enclosing herewith ten sheets of drawings (Figures 1-10) prepared in compliance with 37 CFR §1.84

Note that each of Figures 1 to 3 as originally filed had split the X-ray powder diffraction into two parts. Applicants are correcting Figures 1 to 3 as originally filed to merge each of the two parts into a single X-ray powder diffraction pattern which applicants believe will improve clarity.

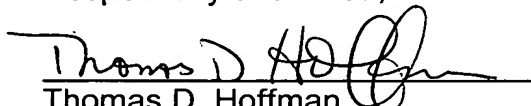

No new data has been added to the enclosed drawings.

Applicants are amending the specification to make reference to the co-pending application and to claim priority claim to U.S. provisional application No. 60/061,231

Applicants assert that the enclosed copies of the captioned application and of the executed Declaration and Power of Attorney are true copies of the application and executed Declaration and Power of Attorney originally filed, on October 5, 1998.

If applicant's attorney of record can be of any assistance, contact him at (908) 298-5037.

Respectfully submitted,

Thomas D. Hoffman
Reg. No. 28,221
Attorney of Record for Appellants
